

## EXPRESSION OF INTEREST

### DO YOU DREAM...

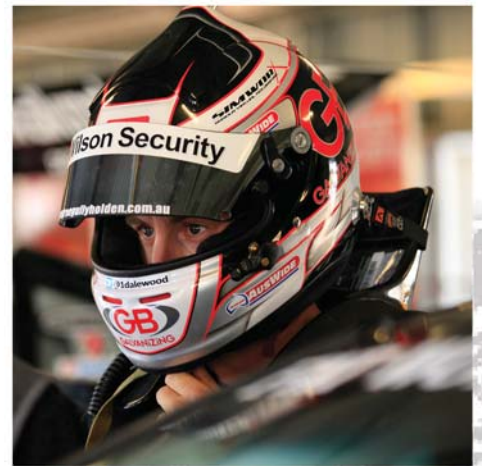

about a job **working in a V8 Supercar Team** assisting the Team Engineer analysing on-track data and helping the Team Driver, or assisting the team Mechanic to replace the differential for the next race. Or do you dream of analysing the Supercar's Telemetry data on and after race day, designing the next best Watts Linkage to help the team improve by half a second on track or even be the next V8 Supercar Rookie? Then this SBAT is for you.

You will receive training in how to set up a V8 Supercar, understand Race Regulations for V8 Supercars, how to analyse telemetry data, how to remove and replace braking and suspension systems, install and manage engine and car electronic sensors, supercar safety, driver training and many other aspects associated with **being part of a competitive V8 Supercar Team**.

With over 20 years experience in business we have established a new V8 Supercar Team to compete in the V8 Supercar **Dunlop Series** around Australia. The team races in 7 events: Adelaide, Winton, Perth, Townsville, Ipswich, Bathurst and Sydney. We are looking for reliable people with good problem solving skills and a **passion for V8 motorsport**.

#### THE BENEFITS:

- You get paid
- You may earn credits towards your VCE or VCAL
- Positions available weekdays and Saturdays
- You receive valuable work experience
- You receive free, nationally recognised, VET training

#### TO APPLY:

Go to the JOBS page on the website [dragonracing.com.au](http://dragonracing.com.au) and complete the Expression of Interest form.
